

Grumpy March by Peter Amidon'

Formation: Longways of 6 - 10 couples

Music: Any jig or reel. It was written for Jay Ungar's tune 'Wizard Walk'.

I like using 'Hotel Verret' from 'Any Jig or Reel'.

A1: Partners 'grumpy march' across to other side (4)

Clap: together, R, together, L (like in *Black Joke*) (4)

Partners grumpy march back across to original side (4)

Clap: together, R, together, L(4)

A2: Circle right in single file promenade (8)

Skip back the other way (8)

B1: **Skipping gypsy with partner into partner swing (16)

B2: ***Top couple swing down to bottom while others clap (16)

*'grumpy march': head down, fists at sides, arms swinging.

**start the gypsy wide and gradually spiral in closer into the swing.

I call it a shrinking elliptical skipping, like planets being pulled together.

*** This can be a standard sashay, or the couple can spin around in a swing while sashaying to the bottom.
